

Adult Scorekeeper Rules

1. Scorekeeper **cannot** keep score for their **own team**
2. Start each quarter at **ZERO (0)**
 - Do **NOT** carry over points from previous quarter
3. There is **no loss** of **points**
 - If the team gets the answer **correct** → *add* the point value
 - If the team gets the answer **wrong** → *zero (0)* points
4. The **captain** needs to be **sitting** when he/she is **writing**
 - If they stand with an answer that they would then like to **change**, they must **sit back down** to *change their answer* and then be **standing again** with their final answer when ‘**time**’ is called
5. At the *end* of each **quarter**, make sure that *your total score* **matches** the *total score* kept by the *student* on their *colored score sheet*. When **both scores match**, make sure the *colored score sheet* is **signed** by all **three** people (**captain**, **student score keeper**, and **adult score keeper**)
6. Monitor *discussions* and *side conversation* so that they will **not distract** or **interfere** with other teams being able to hear the emcee reading the questions
7. Directions for a **challenge** or *question* about *accepting a answer*
 - A **challenge** must happen **before** the *reading* of the *next question* so the *captain* must make the *judges aware* of their **challenge** by *calling out* “**Challenge!**”
 - The *captain* will take their *answer* to the **judges table** at the *front* of the *room*. The *judges* will determine if the *answer* is **acceptable** or **not**. One of the judges will write **YES** or **NO** on the *captain’s answer sheet* letting you know if the answer is **correct** or **wrong**.
